# ORGANISING YOUR WEDDING

Booking and organising a wedding can be difficult and stressful, but it needn't be. We have years of experience organising events and know how to make both the planning and 'big day' run smoothly.

We organise and manage everything relating to food, beverages and venue set-up.

We give you complete flexibility around additional service such as flowers, photographers, entertainment etc. But we do have the best partners so you can ask us in any case.

After booking your wedding, we take you through our planning process which covers in detail all the elements of the day that need to be considered. We work closely with you to ensure that all the details are planned and agreed in plenty of time.
